Presented by Friends of Harriett, Inc.

2012 Honoree Margery Pabst

Author, Radio Host, Lover of the Arts and Passionate Philanthropist!

Margery Pabst is a speaker, facilitator, and co-author of several books on life transitions. Her most recent book, *Enrich Your Caregiving Journey* won the "Caregiver Friendly Award". Margery also writes several monthly articles for various medical websites and hosts the radio show, "Caregiver and Physician Conversations".

Her goal: "To help readers and listeners achieve personal resiliency for anything life may throw at them."

Her work is also an integral part of her philanthropy. All income goes directly to The Pabst Charitable Foundation for the Arts which she founded with her late husband, Mark, in 2004. The mission of the Pabst Foundation is to nurture artists and art forms that are interdisciplinary, innovative, diverse and have ongoing impact in communities.

"We select our recipients based on what they have done and will do to share their creativity and knowledge with others. A high standard of excellence is also a must", Margery explains. "It's the ripple effect we look for, kind of like fishes and loaves if viewed spiritually."

The Pabst Charitable Foundation supports both organizations and individuals who fit this criteria. The Foundation has recently applied this interdisciplinary concept beyond the arts and funded projects that use the arts to impact wellness, community well being, and medical research. Margery's websites are www.pivotalcrossings.com and www.pabstfoundation.org.

Of Harriett Lake, Margery states, "She is my mentor, brilliant in all respects. What I admire most is Harriett's keen interest in people; never was there a bigger heart!"

Margie, you are a gentle and loving inspiration to all who know and love you. Our community is blessed to have you, and the Friends of Harriett are proud to call you "One of Our Favorite Things!"
